Continuation of 11. does NOT place the application in condition for allowance because:

The Applicant's proposed amendments received 05/04/2009 appear to be able to overcome the Bowman reference. The proposed amendments distinguish between using words from previous queries indicating a "user's intent" to modify a subsequent query from search results to modify a query. This narrowing of the claim language would overcome the Bowman reference with respect to that particular limitation.

However, the Examiner does not believe that this amendment makes the claim immediately allowable. Further search and consideration of the prior art is required, and it is the Examiner's belief at this time that a new prior art rejection will be given if prosecution is continued via RCE.

For all other issues the Examiner directs the Applicant to the Examiner's Final Office Action mailed 03/04/2009..
